

# Holden Village Portfolio

The following is a sample of the work I did during my time as a Graphic Designer and Website Creative Tech at Holden Village. Holden Village has a style guide with specifications like colors, font, and writing style. This style guide was used as the base for all my projects.

## Annual Report

A 12-page report for donors on the finances from the 2023 fiscal year and the impacts their donations had. Created using Adobe InDesign.

## Advancement Bulletin Board

A bulletin board with information about supporting Holden Village. I created all the text in Adobe Illustrator, selected the photos, and painted the main sign.

## Linocut Deer Sticker

A sticker I made featuring the beloved baby deer to be sold at the Holden Village store. To create it, I first carved into a linoleum block and then water colored the resulting print. Then the physical artwork was scanned and edited in Adobe Photoshop.

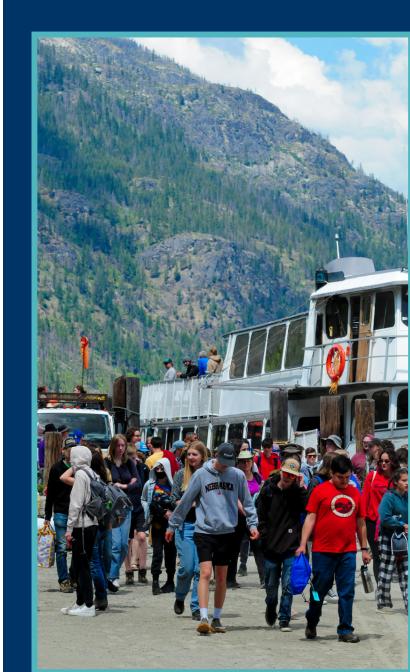

## Spring Appeal Card

A card sent to our donors to ask for their support. Raised over \$24,000 in donations. Created using Adobe InDesign and then sent to the printer we work with for distribution.

# Website Updates

I updated this page on WordPress using the Elementor plugin to be more intuitive for prospective applicants. Before it was difficult to navigate because it was all just basic text.

## Social Media Post

While I was not the main person in charge of social media, I served as a backup. I also served as a point person to bounce creative ideas and choices with. Here is a post that I photographed and put together.

A composite image featuring a large central photograph and a social media post overlay on the right. The central photograph shows four people sitting on the back of a white pickup truck in a snowy, mountainous landscape. The social media post is from the account "holdenvillage".
